Matrosov, V. M.
ON THE THEORY OF THE STABILITY OF MOTION.
[1963] 18p 15refs
Order from OTS or SLA \$1.60 63-20287

Trans. of #Prikladnaya Matematika i Mekhanika (USSR)
1962, v. 26, no. 6, p. 992-1002.

DESCRIPTORS: *Motion, *Stability, *Mechanics,
Equations of motion, *Inequalities, Functions,
Mathematical analysis;

In this paper an attempt is made to obtain criteria for the stability of motion using simultaneously several V functions. Further, each V function can satisfy less rigid requirements than the requirements in the corresponding theorem of Liapunov's second method with one function. This promises that the use of several V functions might lead to a more flexible apparatus. (Author)
